# Chairman

Progress for me has never been a dream. It has always been a distant reality & one milestone is achieved, there is always another one waiting to be crossed. It is with this belief that I started Agson Industries Pvt Ltd in 2001, a company that was in the business of Lead Acid Inverter Battery. Almost instantly, Agson Industries Pvt Ltd became a prominent name in its business segment, but like every entrepreneur sticks to their dream, I always wanted to push my company to more prosperous milestones.

I am confident that the company will continue to scale milestones of excellence for years to come.
